

April 9, 1975

that doesn't take very long. So if they have to pull out maps and go through all of this in Senator George's county, I am surprised that anybody registers there. That, to me, is one of the most inefficient, ridiculous, time wasting systems I have ever heard of in my life, and in 1975, something ought to be done about that, and if he is serious about that being the system, I am going to talk to the Douglas County election commissioner because I have a degree of rapport with him and see if he would be willing to sit down with whoever controls the registration system in Senator George's county and help give some pointers on how to refine that system. Senator Kime, could I ask you a question?

SPEAKER: Senator Kime, do you yield?

SENATOR KIME: Yes.

SENATOR CHAMBERS: I think I heard you correctly when you said somebody in your part of the country may have to drive as far as 30 miles to a polling place.

SENATOR KIME: Right.

SENATOR CHAMBERS: Did I hear you correctly?

SENATOR KIME: You heard me correctly.

SENATOR CHAMBERS: How far would the county court house be from that person's home?

SENATOR KIME: Probably 130 miles.

SENATOR CHAMBERS: You mean there are people...

SENATOR KIME: Take your map of Nebraska and look at Cherry County.

SENATOR CHAMBERS: All right. I will take what you say, Senator Kime. Thank you. Members of the Legislature, if it takes 130 miles to go to the court house to register in Senator Kime's country, 30 miles is still less than 130 miles. It is still about $3/4$ less distance to travel so it is making an attempt to bring the privilege of voting to the people. I would like to ask a question, if I may, to Senator George. Senator George, what privi...what right do you think a citizen in this country has which is of more significance and weight than the right to vote?

SENATOR GEORGE: Senator Chambers, I, of course, believe that that is the right of the citizen and that is why I introduced my bill 494. That makes it possible in addition to the usual process now to have two days open for extra registration in each incorporated village or town, that is what spreads it out, that is just what you talked about with Senator Kime.

SENATOR CHAMBERS: I agree with how far your bill went but I am asking you, if we can rank rights that citizens have in this country. We are talking about with reference to the governing structures, selecting people and so forth, what right would you say has more weight and merit than the right to vote?
